AVERAGE	2024	JULY 2025 (ANNUALIZED RETURN)	*PERFORMANCE SINCE INCEPTION (07-OCTOBER-2019)
Cytonn High Yield Fund (CHYF)	21.9%	22.5%	16.4%
Benchmark (182 day T- Bill + 5.0% points)	20.7%	13.4%	15.3%

**Historical Percentage you can expect to earn with the fund during one year of investment on basis of the so far realized monthly returns*

2. FUND MANAGER'S REPORT AND OUTLOOK

Fund Objective

The Cytonn High Yield Fund is a specialized Collective Investment Scheme with exposure skewed towards investment in real estate assets. The Fund aims at capital preservation while earning high returns and maintaining sufficient liquidity. The Fund aims to achieve above average returns that not only beat inflation but are also better than the yields offered by both government securities and fixed deposits.

Portfolio Strategy

The fund will largely be invested in fixed income and real estate related securities. Being a specialized Fund, the Fund can invest up to 80.0% in Real Estate funds, but to ensure sufficient diversification, no single investment should be more than 25.0% of the portfolio unless in special cases.

Economic report and outlook

According to the Kenya National Bureau of Statistics (KNBS) Q1'2025 Quarterly Gross Domestic Product Report, the Kenyan economy recorded a 4.9% growth in Q1'2025, at par with the 4.9% growth recorded in Q1'2024. The main contributor to Kenyan GDP remains to be the Agriculture, fishing and forestry sector which grew by 6.0% in Q1'2025, higher than the 5.6% expansion recorded in Q1'2024. All sectors in Q1'2025 recorded positive growth rates, with varying magnitudes across activities. Most sectors recorded contraction in growth rates compared to Q1'2024 with Accommodation & Food Services, Financial Services Indirectly Measured and Professional Administration recording growth rate declines of 34.0%, 13.4% and 4.8% points to 4.1%, 9.0% and 4.6% from 38.1%, 15.4% and 9.4% respectively. Other sectors recorded an expansion in growth rates, from what was recorded in Q1'2024, with Mining and Quarrying, Taxes on products and Construction recording the highest growths in rates of 26.0%, 2.8% and 2.6% points, to 10.0%, 5.7% and 0.4% from (16.1%), 2.9% and 3.0% respectively. In our view, the economy's growth is largely pegged on how inflationary pressures in the country remain stable, and the sustainability of the strengthening of the Kenyan Shilling. However, growth is likely to be weighed down by rising fuel prices and increased taxation by the government thereby decreasing the purchasing power of consumers.

During the month, yields on the government papers were on a downward trajectory, with the 91-day, 182-day and 364-day paper yields decreasing by 7.9 bps, 7.3 bps and 12.1 bps to 8.1%, 8.4% and 9.7% respectively, from 8.2%, 8.5 and 9.8% recorded the previous month. Additionally, the Kenya Shilling appreciated marginally by 0.2 bps against the US Dollar, to close the month at Kshs 129.2, remaining relatively unchanged from end of June.

The July 2025 y/y inflation rate increased by 0.3% points to 4.1%, from the 3.8% recorded in June 2025. Notably, inflation has remained within the CBK target range of 2.5%-7.5% for the past twenty-five months.

Portfolio Performance

The Cytonn High Yield Fund delivered an average return of 22.5% p.a. beating the inflation rate of 4.1% in the month of July to deliver positive real returns.
