*Historical Percentage you can expect to earn with the fund during one year of investment on basis of the so far realized monthly returns

2. FUND MANAGER'S REPORT AND OUTLOOK

Fund Objective

The Cytonn High Yield Fund is a specialized Collective Investment Scheme with exposure skewed towards investment in real estate assets. The Fund aims at capital preservation while earning high returns and maintaining sufficient liquidity. The Fund aims to achieve above average returns that not only beat inflation but are also better than the yields offered by both government securities and fixed deposit..

Portfolio Strategy

The fund will largely be invested in fixed income and real estate related securities. Being a specialized Fund, the Fund can invest up to 80.0% in real estate funds, but to ensure sufficient diversification no single investment should be more than 25.0% of the portfolio unless in special cases.

Economic report and outlook

According to Kenya National Bureau of Statistics (KNBS), the Kenyan economy recorded a 1.1% contraction in Q3'2020 down from a growth of 5.8% recorded in a similar period in 2019. This was the second consecutive contraction, following the 5.7% contraction recorded in Q2'2020. The overall performance was cushioned by growths in Construction which grew by 16.2%, Agriculture, Forestry and Fishing activities, 6.3%; Health, 5.6%; Financial and Insurance activities, 5.3% and Real Estate Activities, 5.3%. Accommodation & tourism and the Education sectors were the hardest hit, declining by 57.9% and 41.9% respectively.

During the month, the yields on the government securities in the secondary market remained relatively stable, which saw the FTSE NSE Kenya Government Bond Index decline by 0.2%, taking the YTD performance to a 0.6% decline. Yields on shorter dated papers were on the rise with the 364-day paper gaining by 0.3% points to 9.3%, while the 182-day and 91-day papers gained by 0.2% points, to 7.9% and 7.1%, respectively. During the month, the Kenya Shilling appreciated by 0.3% against the US Dollar to close the month at Kshs 109.5, from Kshs 109.8 recorded at the end of February, mostly attributable to inflows from agricultural products and remittances outweighing the slowing importer dollar demand.

Portfolio Performance

The Cytonn High Yield Fund successfully delivered above-market returns in March 2021, averaging 14.1% against the benchmark return of 12.8% p.a.
